

New Céliane™ programme

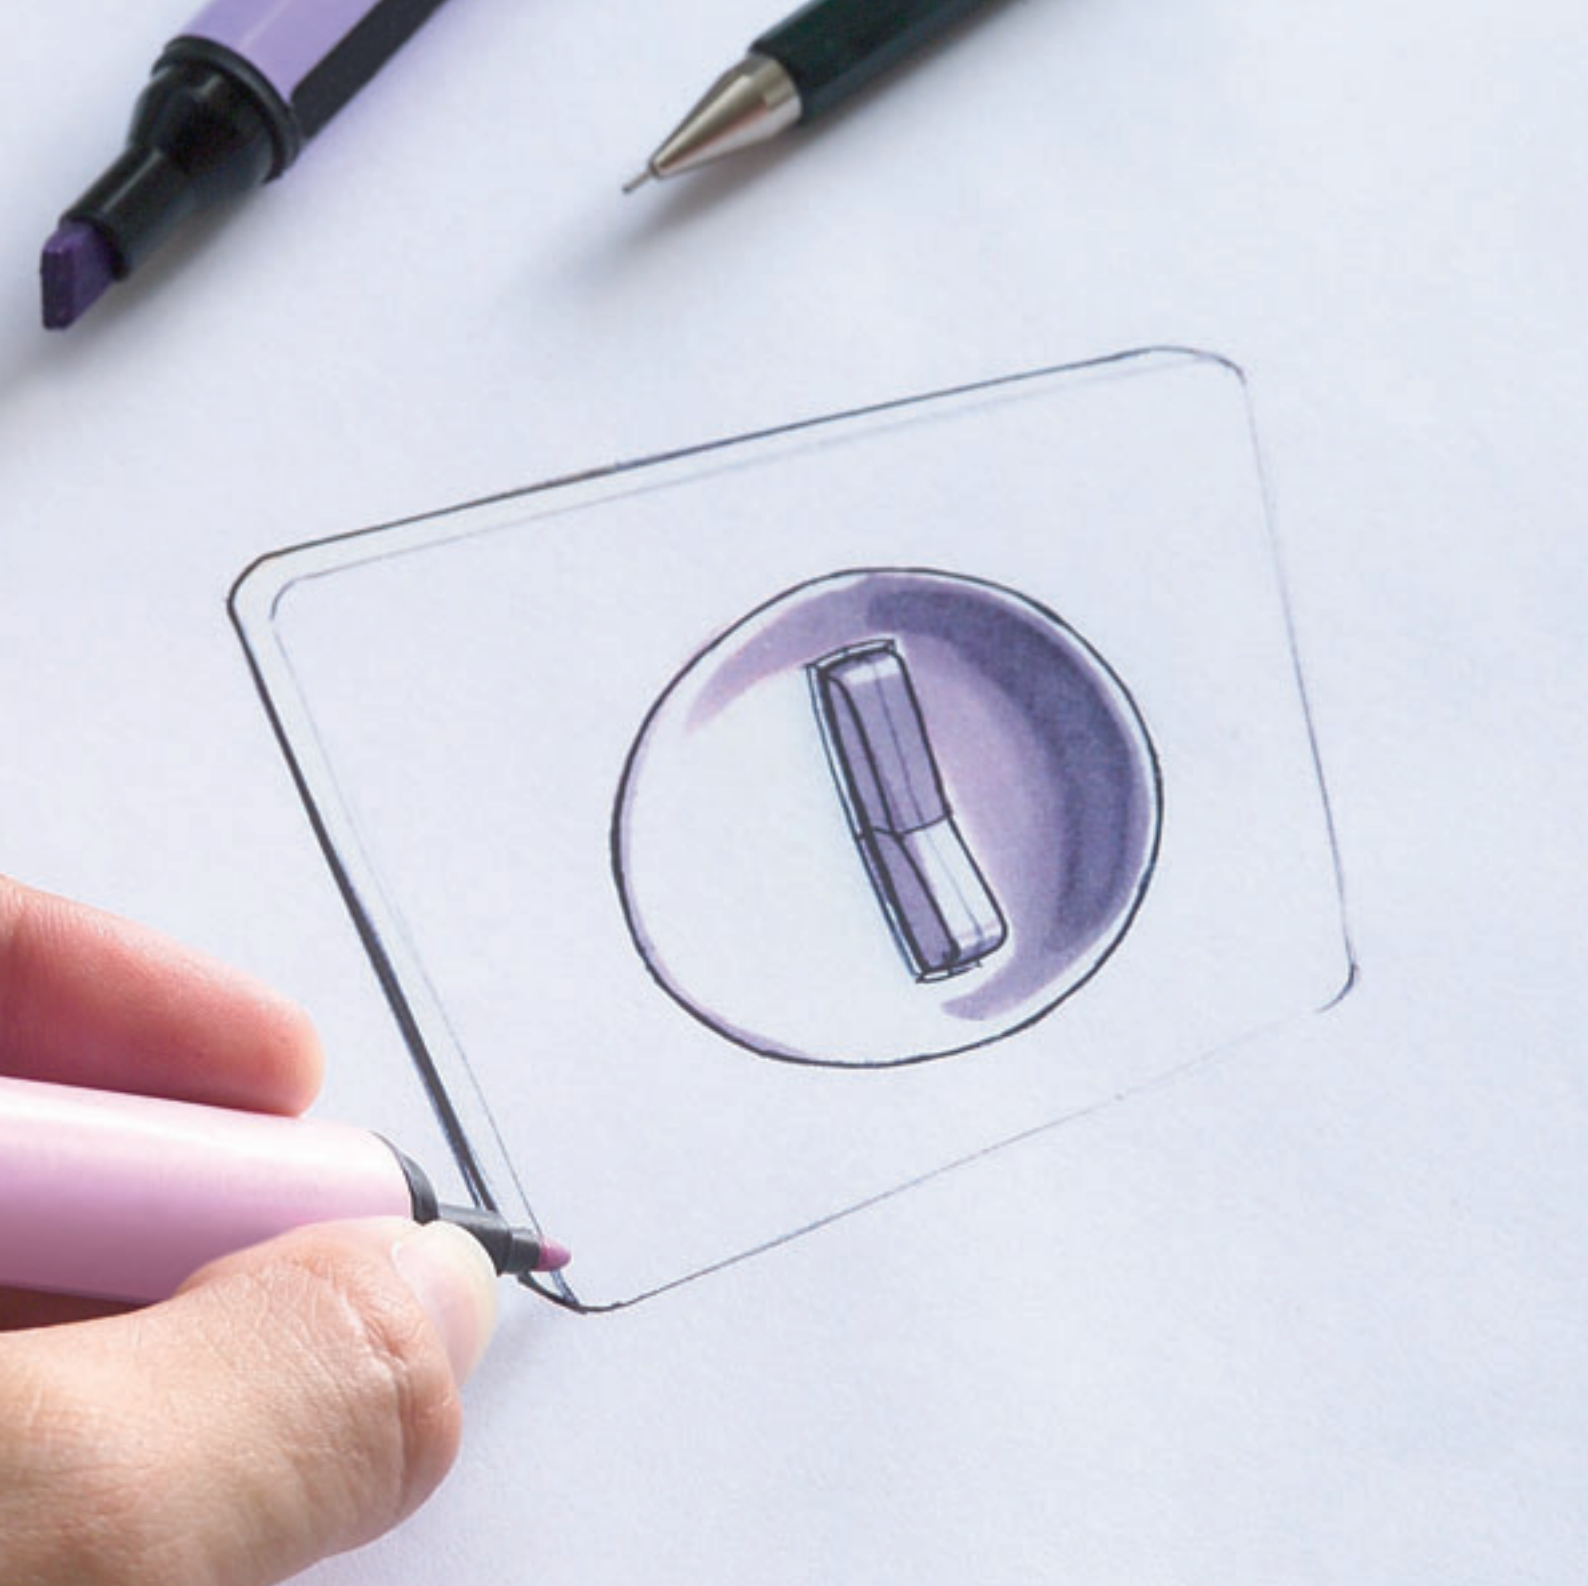

a pleasure to look at and use

SOLUTIONS FOR HOMES AND LIVING AREAS

♡ powering pleasures of life

 **legrand**®

First, imagination and the creative idea, and then the precision of computer design.

**We have created it
for you**
**A supreme combination
of shape and function**

To create Céliane, we have combined two perfect shapes: the rectangle and the circle. In a highly graphical design that makes no concession, totally functional and useful.

To it we have added the emotion of the senses - sight and touch - through an innovative palette of materials and colours and an extensive range of functions for comfort, communication and safety. Everything for more well-being in the home...

Titanium glass

Camel leather

Maple wood

Pleasing to the eye Expressive and innovative materials and colours

Frosted, satin-finish and glazed plastics...
brushed, polished and anodised metal... various species of wood...
glass, ceramic and even leather: the Céliane collections finally bring
a welcome range of colours and materials into the world of
electricity and multimedia. Céliane brings back charm to your decor
with a new aesthetic emotion.

Silent switch | Kaolin glass

Flush with the surface
Touch-control switch | Nickel Velvet

Pleasure rediscovered
Lever switch | Mahogany

Contactless sensations
Sensitive switch | Camel leather

An ambience for every moment
Dimmer switch with LEDs | Porcelain

Precise action
Switch | Corian® Nocturne

The pleasure of silence
Silent switch | Maple

Artistry and style Controlling lighting differently

Forget the conventional functionality of the switch - on/off - and discover a new pleasurable action for switching your lights on and off and controlling their brightness. Rock, skim, press ... choose your action and control your lighting in your own way.

The pleasure of receiving with control of the welcome lighting, blinds, etc.
Video door entry system | Kaolin glass

Have control for the whole house; heating, lighting, blinds
Scenario controller | Kaolin glass

Have control in one room; lights and blinds for example
Scenario switches | Kaolin glass

Comfort and communication by hand and eye

Legrand has developed this system to bring new electrical solutions to comfort, safety and communication in living areas. Forget the switch with its conventional functions. Instead imagine real precision instruments that will enable you to control, check, adjust and programme all the electricity and multimedia in the house: your life becomes simple, and you enter the world of pleasure.

Essential shades at a single price. Select the shade throughout the house

Neutrals Universal shades

The family of Neutrals, available in Brilliant White plastic and Satin-finish Sand, Taupe, Cement and Khaki plastic. It is a collection, designed to go harmoniously throughout the house.

The pleasure of silence
Silent switch | White

TV socket | Khaki

Let yourself be guided
Pushbutton with indicator | Taupe

Multimedia in your home
Multimedia socket | Cement

Switch
Sand finish

Switch | Titanium

Another possibility for consistency throughout the house: Titanium (see Anodised units on page 15).

The whole colourful world of children's dreams

Glazed units Flashy sparkle

Smooth, glossy and acid like sweets, the Glazed units decorate your walls with the joyous sparkle of their colours: Cyan, Magenta, Bamboo, Mandarin and Ice. They fit quite naturally into the world of the child's room, but also everywhere you wish to brighten up your decor.

For easier access, at a good height
Switch + flush-mounted socket | Cyan

Pleasure rediscovered
Lever switch | Ice

Flush with the surface
Touch-control switch | Magenta

Multimedia socket + 2P+E socket | Bamboo

Clothe the inside of your house
Dimmer switch with LEDs
+ roller blind control
Mandarin finish

Céliane's Frosted units love trends.

Frosted units

The sensuality of satin finish

A collection of pastels, all of them softness itself: Anise, Mirabelle, Lavender, Grapefruit and Coconut for so many small touches of emotion. With a matt surface, soft on the hand and eye, very trendy in the bathroom and even, why not, in the bedroom.

Flush with the surface
Touch-control switch | Mirabelle

Go past without worrying
Automatic switch | Lavender

Pleasure in all simplicity
Switch | Coconut

A radio in the design of your switches
Tuner + 2P+E socket | Grapefruit

Contactless sensations
Sensitive switch
Anise finish

Anodised units Clear, reliable value

Anodised units, more than high-tech software.
As for all Céliane finishes, these are also functions for which we have totally rethought the method of use. They are well integrated, highly intuitive and self-evident with display of the state of the lighting, heating, etc.

Pleasure in welcoming
Audio door entry system | Mica

Control lights, blinds, heating, etc.
Scenario switch | Aluminium

An ambience for every moment
Dimmer switch with LEDs | Copper

Double switch with indicator | Titanium

Heat to within a degree or so
Heating selector switch | Graphite

Switch
with illuminated ring
Cobalt finish

Leather and wood Also on your walls

The leather of your sofa and armchairs and the wood of your furniture, the traditional materials of your home furnishings, are today invited onto your walls with Céliane. Create new harmonies: make use of its two shades of leather, Camel and Wine, and its three wood finishes, Maple, Mahogany and Wenge*.

Control all your blinds with a single action
Centralised control | Camel leather

Make it easier to move around at night
Automatic pilot light switch | Wenge coloured*

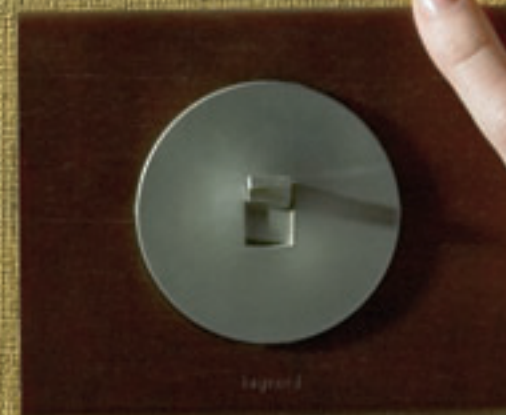

Control lights, blinds, heating, etc.
Scenario switch | Wine-coloured leather

Ideal multimedia distribution assembly.
2 x 2P+E sockets + double multimedia socket | Maple

Pleasure rediscovered
Lever switch
Mahogany finish

Revitalise your walls with touches of natural materials.

Porcelain and glass

Return to origins

Real materials, minerals; who remembers that they covered switches and sockets in the early days of electricity? Timeless, today they are modernity *par excellence* and Céline quite naturally appropriates them in three finishes, Kaolin glass, Titanium glass and Porcelain. Furthermore, Legrand asked Bernardaud, a world standard in porcelain design, to produce this model which brings out all the sensuality and delicacy of the material.

Flush with the surface
Touch-control switch | Porcelain

The pleasure of receiving with control of the welcome lighting
Video door entry system | Kaolin glass

Touch-control
dimmer switch
Titanium glass finish

Corian® A lifetime of pleasure

Decorators have discovered this synthetic material created by DuPont de Nemours and its hard-wearing beauty can be found throughout the home. Today, with Céliane, it also fits quite naturally on your walls... In Antarctica, Nocturne, Pompeii Red, and for a long time.

Roller blind control
+ 2 lever switches
Pompeii Red finish

Triple 2P+E sockets | Corian® Nocturne

Nothing else to adjust, it is programmed
Programmable heating selector switch | Antarctica

Metal

Like a sculpture

Pick up a device in your hand and feel the weight and density of its material: it is cast metal, solid like a sculptured object.

This is Metal Céliane.

Beautiful and sensual in plain Brushed Stainless Steel or Nickel Velvet.

Superb and astoundingly decorative in Oxidised Iron and Oxidised Copper finishes.

Display the inside of your home to advantage
Lighting scenario controller | Brushed stainless steel

Home cinema or Hi-Fi assembly
Loudspeaker socket + 2P+E socket | Oxidised iron

Push switch
Nickel Velvet finish

With the kind permission of Établissements Cabasse

Combining metal's stylish precision and aesthetic power with high-tech.

Scenario controller | Porcelain

Control with visibility

Control the operation of roller blinds, dimming of lights, lighting scenario creation and other electrical systems with absolute certainty. Icons and LEDs on the functions act as small instrument panels which confirm the state of each function for you.

With a glance, you can check your installation.

Control lights, blinds, heating, etc.
Scenario switch | Coconut

Control all your blinds with a single action
Centralised roller blind control | Magenta

View the light level
Dimmer switch with LEDs | Cobalt

From the moment you enter, control the lights, heating, alarm and blinds of the whole house on a single screen.

A screen for extremely simple control

Display the inside of your home to advantage
Lighting scenario controller | Wine-coloured leather

Programmable heating selector switch | Wenge coloured*

Control energy

Programme your heat to within a degree or so, room by room, hour by hour, per day or per week. Gain comfort and energy savings with efficient and innovative management systems, well-integrated into Céliane's design. For new and even refurbishment work, for gas, oil and electric heating.

Set only the temperature.
Room thermostat | Anise

Nothing else to adjust, it is programmed
Programmable heating selector switch | Wine-coloured leather

Keep control over the time and the degrees
Heating selector switch
Wenge coloured finish*

*Wenge coloured ash

Multimedia socket | Brushed stainless steel

Communicate everywhere in your home

With In One by Legrand systems, your walls have eyes and ears. Wi-Fi sockets give you wireless surfing on the Net everywhere in your home. Incorporate stereo sound distribution into every room using the tuner and loudspeakers. Connect your Hi-Fi or home cinema speakers where you want using the loudspeaker sockets. These functions are incorporated in the Céliane design and are available in all its finishes.

Connect home cinema or Hi-Fi system
Loudspeaker socket | Graphite

Wireless Internet from the lounge to the terrace
Wi-Fi access point | Titanium

Identify the media (TV, Internet, telephone)
Identifiable multimedia socket | Porcelain

Sound distribution

Use independently in every room
Local sound distribution control with screen
Mirabelle finish

Listen in every room
Loudspeaker | Maple

Video door entry system | Kaolin glass

Security for you and your home

The Legrand system also watches over your security: with its audio or video door entry systems, you no longer open your door to just anybody, and for example trigger a customised lighting scenario for welcoming your visitors. Regain peace of mind, security is in your walls, in the Céliane look.

Pleasure in welcoming
Audio door entry system | Oxidised iron

An installation always ready for the future.

The power to upgrade

Change, add. Decors, functions... At will

Look at these switches.
They control the lighting, heating and roller blinds, throughout the whole house.
With radio technology, their commands are transmitted without wires. You can therefore upgrade your installation at will, without damaging walls or carrying out major work since there are no longer any wires to run.

Control lights, blinds, heating, etc.
Radio scenario switch | Taupe

Control all the blinds with a single action
Radio roller blind control | Kaolin glass

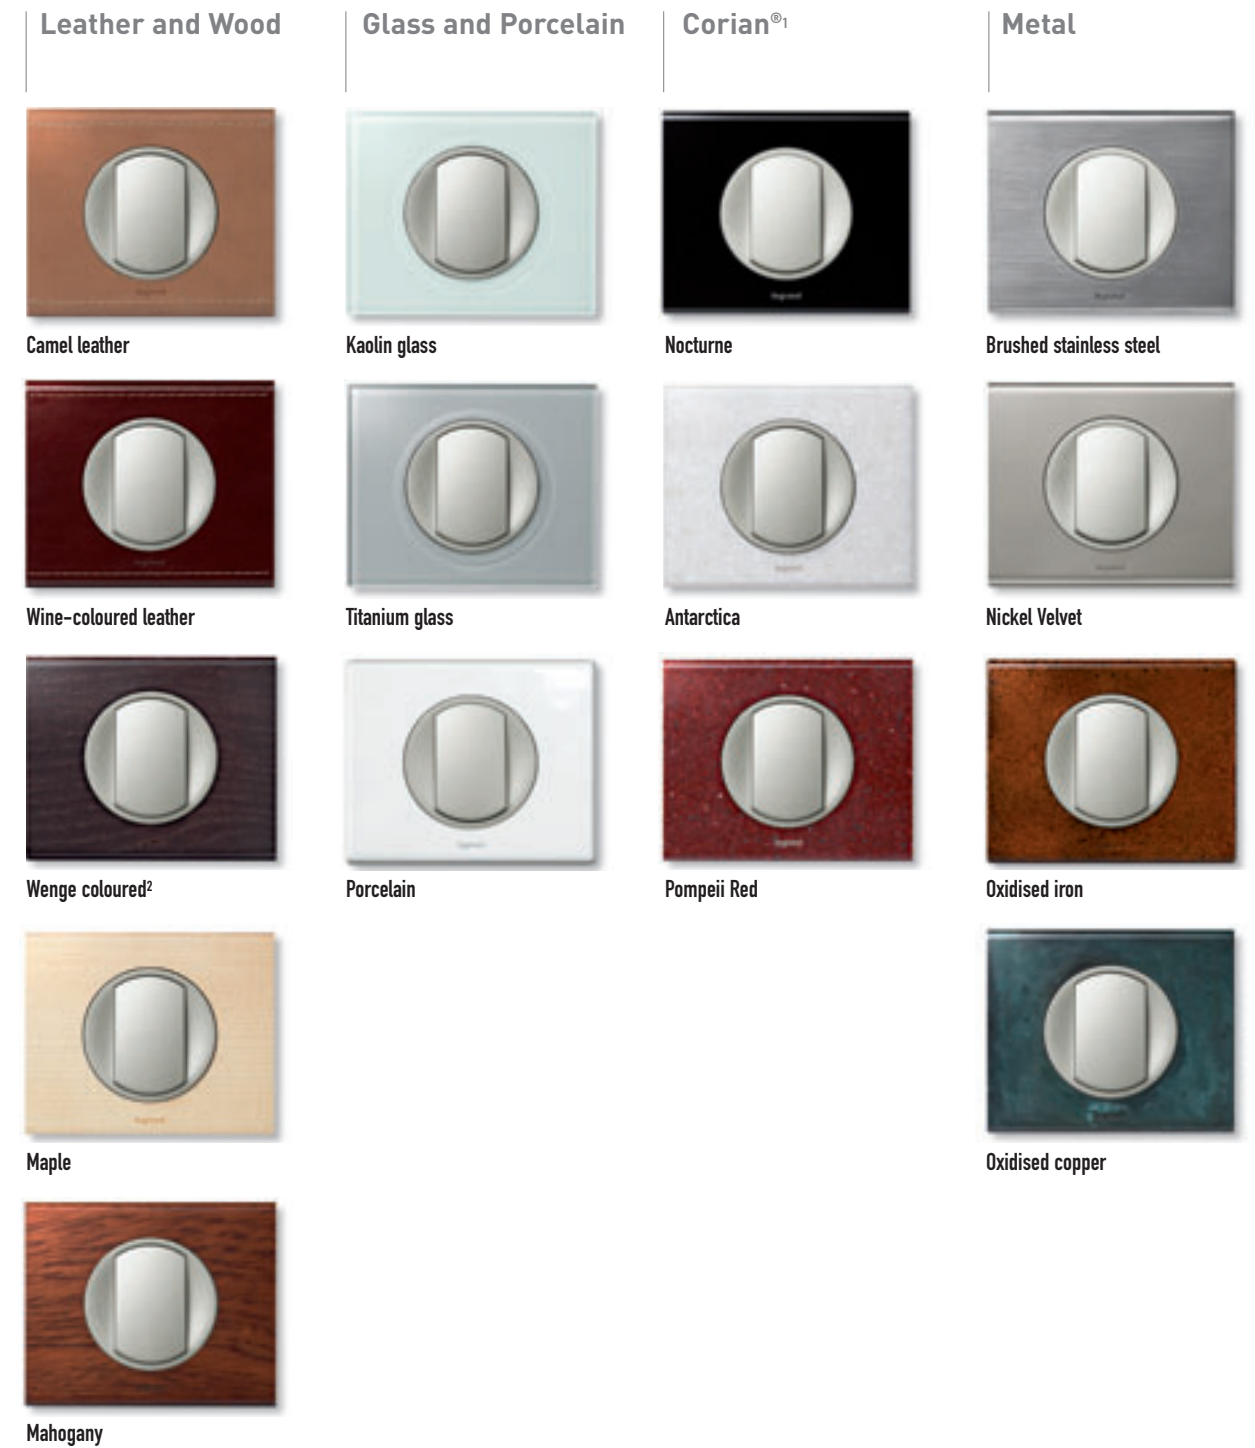

Add another lighting point
Radio switch | Brushed stainless steel

Programme and regulate the temperature
Radio programmable thermostat | Ice

Upgrading without wires

Environmentally-friendly products
The life cycles of Céliane Programme solutions have been analysed in order to reduce their environmental impact from manufacturing right through to end-of-life treatment. The results of these analyses are given in the PEPs (Product Environmental Profiles). This symbol will help you identify the products that actively contribute towards optimising energy use.

*All the functions are shown in Titanium finish.

New Batibox rigid box

Available for dry walls, masonry, concrete or even (an innovation) multimaterials in depths of 40 or 500 mm, ideal for implementing electronic functions (request the Batibox document).

New Batibox universal support

Available with screws for new work or clips for refurbishment. Also allows mounting of the new Mosaic programme. All supports are supplied with "site protection" to protect the mechanism from all possible hazards (plaster, paint, cutter blows, etc.).

Céliane mechanism

Fitted with automatic terminals over almost the entire programme.

Céliane plate

36 finishes allow infinite combinations with the cover plates.

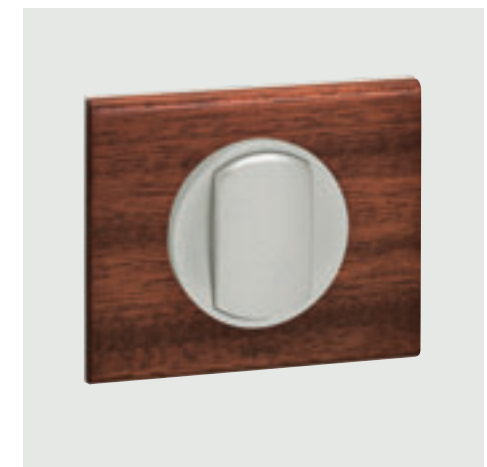

Like normal But better

Installing Céliane is just like normal, but much simpler, and much faster.

Because Céliane components have been rationalised, there are fewer catalogue numbers to deal with, and only 2 cover plate finishes.

For the new Batibox programme and its universal support, the wiring of the Céliane boxes and mechanisms is simplified, and therefore optimised.

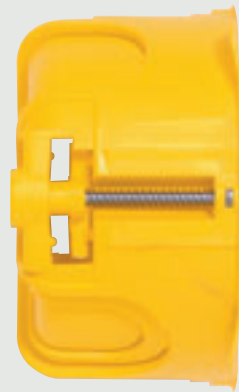

Single switch | Mahogany
Cat. No. 802 51 + 670 01 + 692 21 + 683 01
(See selection chart on page 56)

Vertical, horizontal, same catalogue numbers

With the new Batibox programme boxes and the universal support, installing Céliane becomes simpler whatever the nature of the wall.

Multimaterial, suits any type of wall

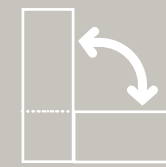

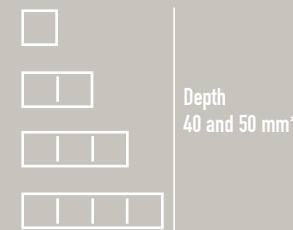

Dry wall with wide retractable clamps

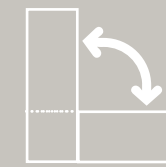

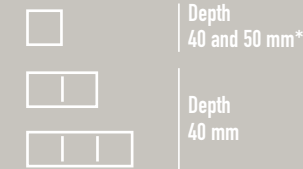

Masonry with protected screws

Dry wall

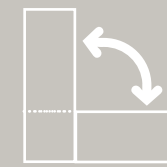

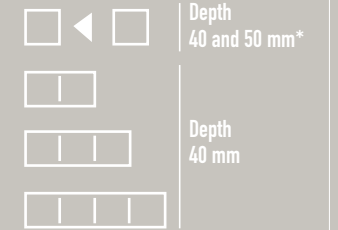

Vertical or horizontal

Multi-material

Vertical or horizontal

Masonry

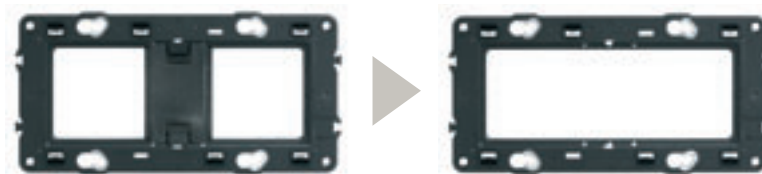

Vertical or horizontal

*Ideal for installing electronic functions

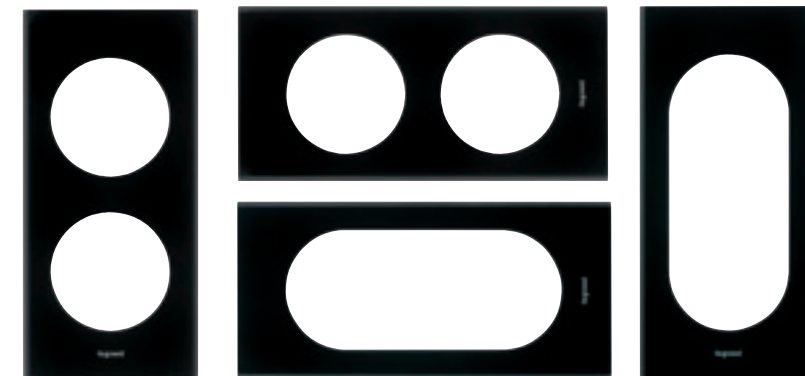

Universal support

Removable spacer for installing thermostat, alarm and similar functions with special plates

Double plates

Double plate for horizontal/vertical reversible installation. Also available in triple and quadruple versions

Double special plate for installing thermostat and similar functions. Horizontal/vertical reversible. Also available in triple version (for quadruple prewired sockets)

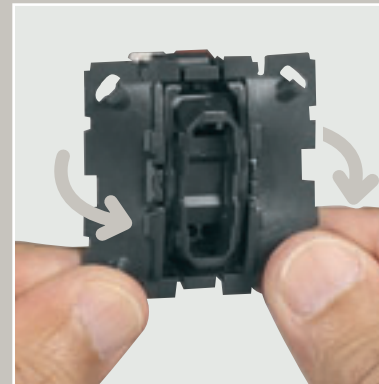

Converting into double functions

With Céliane, installation and dealing with catalogue numbers for multiple positions of two-way and pushbutton switches and multimedia sockets become a pleasure. Fewer catalogue numbers to deal with and simple actions to know.

2 vertical positions with double switch with automatic terminals + scenario switch

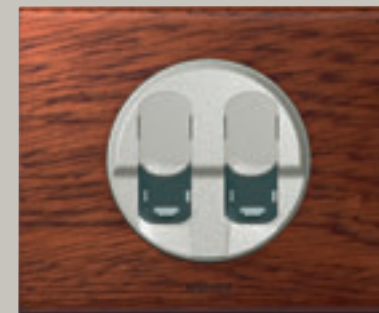

Make a double lighting function, two-way and pushbutton, a double RJ, etc.

Remove the side fins from the mechanisms simply by pressing along the pre-cut

Join the 2 mechanisms and form a double function

Two functions on one 1-position plate

Up to 3 lighting points on the same plate (two-way, pushbutton)

All combinations are possible with a minimum number of catalogue numbers.
